

TUCAI presents the best solutions for pumps at AHR Expo 2024

TUCAI Group, one of the leading manufacturers of flexible connectors in the world located in Barcelona (Spain), attends the event for **HVACR** as industry professionals with a range of very interesting products in the current market:

- The new TUCAI offering of **Fire Resistant Hoses (FRH)**, with an EPDM core material listed to UL94 V-0.

- Trusted range of **EXTRA steel-braided EPDM** hoses from 1/2"-2" for hydronics applications.
- The **TWIST O2B and BUTYL O2B** hose assemblies with oxygen barrier and push-fit couplings.

All these products stand out for their ability to provide cost savings to builders, as well as its short installation time and excellent flexibility that make them very easy to handle on site.

TUCAI representatives will be available at booth **S10565** in the South Building to discuss these solutions, answer questions and explore opportunities for collaboration. The company invites all AHR Expo visitors to discover how TUCAI is evolving in the industry.

For more information or to schedule a meeting during AHR Expo, please contact Oscar Antonijuan (oscar.antonijuan@tucai.com) or Xavier Nolla (xavier.nolla@tucai.com) or visit our booth.

About TUCAI:

Tucaí Group is one of the world's leading and one of the most reliable and competitive partners in flexible water, gas and diesel connection solutions since 1963.

Our products are known for their perfect combination of quality and performance and for being a worldwide reference in increased durability, safety and commodity.
